

WHAT IS CLAIMED IS:

1. A demountable lampshade, comprising:
 - a plurality of shade piece, each including a frame with a upper frame section, a lower frame section and two side frame sections, and at least one side frame having a buckle member formed thereon to clamp two corresponding side frame sections when the shade pieces are mounted to each other; and
 - a connecting base located to the upper frame sections of the mounted shade pieces, including an outer ring, an inner ring and a plurality of connecting rods connected between the outer and inner rings.
- 10 2. The demountable lampshade of claim 1, wherein a protrusion is formed near an end of the side frame section connected with the corresponding upper frame section of each shade piece so that the outer ring is located between the protrusions and the upper frame sections of the mounted shade pieces.
- 15 3. The demountable lampshade of claim 2, wherein the outer ring includes a plurality of indentations with respect to the protrusions.
4. The demountable lampshade of claim 3, wherein a diameter of the inner ring is much smaller than a diameter of the outer ring.
5. The demountable lampshade of claim 3, wherein a number of the shade pieces is equal to a number of the indentations.
- 20 6. The demountable lampshade of claim 1, wherein two buckle member are formed on the side frame section.
7. The demountable lampshade of claim 1, wherein the buckle member is pivotally formed on the side frame section for clamping.
- 25 8. The demountable lampshade of claim 1, wherein the shade piece has a fanlike shape.
9. The demountable lampshade of claim 1, wherein a number of the shade pieces is two.

10. The demountable lampshade of claim 1, wherein each shade piece includes a shade body is outstretched at one side frame section to form an overlapping cover on the other shade piece while two shade pieces are mounted together.

11. The demountable lampshade of claim 10, wherein the shade body is made
5 of a plastic material of PS (PolyStyrene).

12. The demountable lampshade of claim 10, wherein the shade body is made
of a plastic material of PVC (PolyVinyl Chloride)
